

# Make Minion Faces

Here's a few tips to get you started.

Eyebrows should be thin and arched.  
Tipping or straightening them adds emotion.

Hair is sparse thin lines.  
Notice how the ones in the center are vertical,  
but the ones on the side angle to the left and right.

Simple smiles are easy and look very Minion.  
Try widening it on one side for a mischievous look.

For open mouths draw the outline, then draw squares inside  
the outline for teeth. Color around the teeth in solid black.

A simple circle with a curved line  
below looks like talking or singing.
